# About

## THE FARMERS MARKET-TO-TABLE DINNER

Orange Home Grown's Annual Farmers Market-to-Table Dinner is a favorite local community event and fundraiser. This multi-course, al fresco meal features locally sourced, sustainably grown, and ethically harvested seasonal foods from local farmers and food artisans that participate in the weekly Orange Home Grown Farmers & Artisans Market.

Dinner and appetizers are prepared by some of the most talented chefs in Orange County. Attendees are invited to bring their best bottle of wine (BYOB) to pair with the locally grown family-style seasonal dishes that will be prepared throughout the evening.

This fundraiser directly supports the growth and development of the community-based 501(c)(3) nonprofit organization Orange Home Grown Foundation. Orange Home Grown works to promote environmental and holistic health by providing creative environments and programs that foster education, awareness, and action. Orange Home Grown's hope is to enrich the community while changing how people measure the value of food and the impacts it has on our lives and the environment.
